

TOPCLASS

LMS by WBT Systems

Video:

Certification dashboards are available that show where the learner stands and what is needed

Description:

TopClass LMS by WBT Systems provides the tools for you to become the preferred education provider in your market, delivering value to learners at every stage of their working life. Our award-winning learning system delivers impactful professional development experiences for association education and certification programs, and virtual conferences. Our focus is to support associations in using integrated learning technology to help drive your digital transformation resulting in growth in membership, increased revenues, and an enhanced learning experience. We believe in truly understanding your challenges and partnering with you to ensure success. Celebrating 25 years of your learning, your way; our customers value our experienced team and flexibility in all we do. Learn more at www.wbt systems.com
